Telemedicine GT Modifier added to services performed -Plus- Q3014 facility code	AAPS and Medicaid	AAPS and Medicaid	AAPS and Medicaid	Approved Medicaid or AAPS provider -Plus- Licensed or certified for the type of service performed	VO will review files for staff qualifications and billing documentation	Notation in the KCPC and clinical record about the location of the member and why telemedicine was chosen as the service delivery method	Can only be provided for outpatient treatment modalities not including IOP. The member and provider must be in separate secure locations. There must be a telephonic and visual component to the service (provider and member should be able to see one another).	Any AAPS or Medicaid member who cannot participate in face to face treatment. The member should not be in the same city as the provider.	The rate for the service is the same as the non-telemedicine rate. The rate for MCD is Q3014 = \$5.00/15 minute increment. \$40 /day maximum. The rate for AAPS is Q3014 = \$5.00/15 minute increment. \$40 /day maximum.	Maximum number of units dependent upon the care provided. There is a maximum daily allowable charge for telemedicine reimbursement for Q3014.	IT security and telephonic infrastructure consistent with telemedicine standards Can be performed for outpatient modalities (such as individual or assessments) only. The same provider cannot bill for the same service on the same day if it is delivered via telemedicine and face to face.	Webcams Telephonic only services – There MUST be a visual component for service delivery. Telemedicine services for residential services such as Intermediate and Reintegration

If you have any questions about what can/can not be billed, please contact Sheree Marzka at sheree.marzka@valueoptions.com

Case Management (CM): member centered to assist individuals to become more self-sufficient through an array of services which assess, plan, implement, coordinate, monitor and evaluate the options and services to meet an individuals needs using communication and available resources to promote quality, cost effective outcomes. Services should address an individual’s major lifestyle, attitudinal and behavioral problems that have the potential to create barriers to the goals of treatment.

Person Centered Case Management (PCCM): available to eligible populations if delivered by a certified PCCM under the AAPS policy for PCCM. Services are provided from a person centered strength based approach. Services are based on barrier reduction for engagement, retention and recovery through the development of community support services. The delivery of services is guided by the member’s personal wellness plan and incorporates the process of structured engagement. For more information on how to become PCCM certified, please contact Charley Bartlett at charles.bartlett@srs.ks.gov
